

LUMEY ENERGY NIGERIA

THE EXHAUSTIVE LONG-FORM SALES COPY BIBLE (AUGUST 2026)

Complete Unabridged Direct-Response Sales Letters, Emotional Agitations, Mechanism Explanations, Load Benchmarks, Fuel ROI Math, and 15-Objection Rebuttals for All 8 Models in the Official August 2026 Product Pricing Guide.

DOCUMENT PURPOSE: Master Multi-Model Long-Form Copy Bible

MODELS COVERED: PowerBox 600, 1500, 1900, 2600, 3100, 4000, 8000, 8000+

CORE SALES THEME: "Energy Sovereignty: Stop Paying The Fuel Tax"

PRICING GUIDE: August 2026 Official Pricing Document

AUDIENCE FOCUS: Nigeria (Remote Workers, SMEs, Households, Estates)

ORDER HOTLINE: 07062878273 | +234 813 974 3177

CHAPTER 1: THE NIGERIAN ENERGY PSYCHOLOGY & THE FUEL TAX

Market Intelligence & Consumer Mindset (August 2026)

Foundation for All Sales Letters

STRATEGIC CONTEXT

To craft sales copy that converts in Nigeria today, you cannot talk like a textbook solar company. You must speak directly to the raw, visceral pain every Nigerian wakes up with:

1. The ₦1,200/L Fuel Trap:

Petrol is no longer cheap. Running a standard 2.5kVA generator for 6 hours an evening drains ₦5,000 to ₦7,000 daily—over ₦150,000 to ₦200,000 every single month. In one year, a family burns between ₦1.8M and ₦2.4M into thin air!

2. The Band A Tariff Shock:

NERC and DisCos have increased Band A tariffs past ₦209—₦225/kWh. When light finally blinks on, meters spin at blinding speed, burning ₦50,000 in prepaid units within days, while dirty grid fluctuations fry electronics.

The Lumey Positioning: Lumey Energy does not sell "generators" or "inverters". Lumey sells **Energy Sovereignty**. A one-time investment that replaces fuel forever, operates in 100% whisper silence, requires zero installation, and is backed by Grade-A Lithium-ion and LiFePO4 cells with up to 5-Year Warranties.

CHAPTER 2: FULL LONG-FORM SALES LETTER " LUMEY POWERBOX 600

Target: Remote Tech Workers, Freelancers, Students, POS Operators

Pricing: Box: ₦260,000 | Solar Combo: ₦320,000

PRE-HEADLINE

ATTENTION: FREELANCERS, REMOTE TECH HUSTLERS, FOREX TRADERS & STUDENTS WHO REFUSE TO LET NEPA DESTROY THEIR FUTURE...

MAIN HEADLINE & SUBHEAD

Stop Letting NEPA Kill Your Foreign Salary, Freeze Your Zoom Calls, And Make You Look Unprofessional To International Clients.

Discover How 600Wh of Silent, Portable Lithium Power Keeps Your Laptop, WiFi Router, Phone & Standing Fan Running 24/7 — With Zero Fuel, Zero Fumes, And Zero Midnight Wahala.

THE VISCERAL STORY NARRATIVE

It is 8:45 PM on a Tuesday evening. You are sitting in front of your laptop. On your screen is the most important Zoom call of your professional life: the final round interview for a remote product design role with a tech firm in London, paying \$3,000 every single month.

You are speaking confidently. You are impressing the hiring panel. You are on the verge of changing your family's financial story forever.

Then, without a second's warning... CLACK.

The lights snap off. The fan stops spinning. The room instantly goes black. The green lights on your WiFi router flicker and die. Your laptop screen displays the dreaded notification: *"Your internet connection is unstable... Reconnecting..."*

Panic rushes through your veins. You scramble in the pitch-black darkness, desperately searching for your phone to turn on your hotspot, only to see your battery glowing red at **8%**. By the time you find a candle, buy data, and reconnect, the meeting has ended. The interviewer sends an email: *"We couldn't reach you. We will proceed with other candidates."*

THE SOLUTION & EXACT RUNTIMES

Meet the **Lumey PowerBox 600**: your personal workstation guardian. Combining a **400W (12V) Pure Sine Wave Inverter** with a massive **600Wh Grade-A Lithium core**, it delivers steady, noise-free electricity for your work tools:

Appliance	Wattage	Verified Runtime on 1 Full Charge
MacBook / Windows Laptop	45W–65W	10 to 12 Hours of continuous work (10+ full recharges)
4G/5G WiFi Router	10W	50+ Hours of nonstop internet connection
Standing / Table Fan	45W–50W	12 to 14 Hours of cool, peaceful sleep breeze
32" LED TV + Decoder	65W–75W	7 to 8 Hours of continuous entertainment
POS Terminal	5W	80+ Full Recharges (keeps POS shops open all week)

THE FUEL MATH & VERDICT

Running a small generator just to charge a laptop burns ₦12,000 daily (₦60,000/month). In 5 months, you burn ₦300,000. The PowerBox 600 complete solar package (₦320k with 200W panel) pays for itself in ~75 days! Every day after that is pure savings.

CHAPTER 3: FULL LONG-FORM SALES LETTER “ LUMEY POWERBOX 1500 & 1900 (3” ¥ #1 BESTSELLER)

Target: 1“3 Bedroom Homes, Families with Babies, Barbers, Salons, PB 1500: ₦380k / ₦500k | PB 1900: ₦440k / ₦590k
Tailors

PRE-HEADLINE

TO EVERY NIGERIAN FAMILY & SMALL BUSINESS OWNER TIRED OF BURNING “,150K+ ON FUEL EVERY MONTH...

MAIN HEADLINE & SUBHEAD

Keep Your Table-Top Fridge Ice-Cold, Power Your Washing Machine, Run Your Blenders & Sleep Under Spinning Fans All Night In Total Silence — Without Buying A Single Litre Of Petrol Ever Again.
The 1,000W Pure Sine Wave / 1.5kWh“1.9kWh Solar Generator That Completely Replaces Your 2.5kVA Fuel Generator. Solves 80% Of Nigerian Household Energy Headaches For Half The Cost Of Rooftop Solar.

THE MIDNIGHT SWEAT & BABY AGITATION

It is 1:30 AM. You worked 10 grueling hours today. You fought through traffic. All you wanted was to come home, eat, take a cool shower, and get 6 hours of peaceful sleep. At midnight, NEPA took light.
Within 20 minutes, your bedroom turns into an oven. Your 1-year-old child starts tossing, turning, and crying uncontrollably as sweat drenches the mattress. Mosquitoes begin to hum.
You have only two terrible choices: (1) Put on slippers, step into the dark backyard, pour “,150/litre petrol into a hot generator, pull the stubborn starter cord until your shoulder aches, and inhale exhaust smoke. (2) Lie down in the dark, fan your crying baby with cardboard paper, and arrive at work tomorrow morning exhausted and angry.

THE SOLUTION: THE 1KW / 1.5KWH“1.9KWH GENERATOR KILLER

The **Lumey PowerBox 1500 Series** was engineered to handle real household cooling, cleaning, and business loads without spending millions on rooftop solar. Equipped with a true **1kW (1,000W / 1.25kVA) Pure Sine Wave Inverter** and a massive **1,500Wh to 1,900Wh Lithium core**:

Appliance	Rated Power	Runtime on PowerBox 1500 (1.5kWh)	Runtime on PowerBox 1900 (1.9kWh)
Table-Top Fridge (Up to 120L)	90W“120W	14 to 18 Hours continuous cold	20 to 24 Hours continuous cold
Home Washing Machine (Up to 10kg)	300W“400W	3 to 4 Complete Laundry Loads	4 to 5 Complete Laundry Loads
Home Kitchen Blender	600W“700W	2+ Hours cumulative blending	2.5+ Hours cumulative blending
Lumey 300W Inverter Pressing Iron	300W	4 to 5 Hours of crisp pressing	5.5 to 6 Hours of crisp pressing
43” Smart TV + Decoder + Soundbar	100W“120W	12 to 15 Hours	16 to 19 Hours
2 Standing Fans (Speed 2 or 3)	90W total	16 to 18 Hours cool sleep breeze	20 to 22 Hours cool sleep breeze
Barbershop Suite (Clippers, TV, Fans, Ring Light)	180W	8 to 9 Hours (Full business day)	10 to 11 Hours (Full business day)

3” Need Extra Runtime? PowerBox 1900 provides +27% more battery storage (1,900Wh) and comes bundled with a massive **600W Tier-1 panel** for rapid daytime replenishment!

CHAPTER 4: FULL LONG-FORM SALES LETTER “ LUMEY POWERBOX 2600 & 3100

Target: 2-4 Bedroom Homes, Working Moms, Frozen Food Sellers, Restaurants

PB 2600: ₦700k / ₦1.0M | PB 3100: ₦800k / ₦1.1M

PRE-HEADLINE

TO EVERY NIGERIAN HOMEOWNER & FOOD MERCHANT WHO HAS EVER WATCHED A POT OF SOUP OR CARTONS OF CHICKEN SPOIL IN A DEFROSTED FREEZER...

MAIN HEADLINE & SUBHEAD

Deep Freezers, Microwave Ovens & Induction Cookers Powered Smoothly On Solar — Without A Single Drop Of Petrol Or Gas.

The 2kW (2.5kVA) / 2.6kWh – 3.1kWh Heavyweight Power Station That Shrugs Off High-Surge Kitchen Compressors, Gives Your Household 100% Food Sovereignty, And Locks In 48-Hour Freeze Protection.

THE SPOILED FOOD NIGHTMARE NARRATIVE

There is no heartbreak in a Nigerian home quite like opening your deep freezer on a Saturday afternoon and smelling that sour, nauseating odor. Just 4 days ago, you spent ₦120,000 on beef, goat meat, fresh fish, and vegetables. You spent hours cooking large pots of soup to feed your family for the month.

Then the neighborhood transformer blew. 48 hours pass. 72 hours pass. Water begins to pool underneath the freezer. The ice disappears. The meat softens. The soup turns sour. In one single week, you lost ₦120,000 in food and spent ₦40,000 on emergency fuel trying to save it.

THE 2KW / 2.6KWH – 3.1KWH HEAVYWEIGHT SOLUTION

The **Lumey PowerBox 2600 & 3100** are engineered for complete household food sovereignty and commercial kitchen power. Powered by a heavy-duty **2,000W Pure Sine Wave Inverter (2.5kVA surge capacity)** and **2,600Wh to 3,100Wh Grade-A Lithium storage**, it shrugs off the massive compressor startup surge of deep freezers:

Heavy Appliance	Rating	Runtime on PowerBox 2600 (2.6kWh)	Runtime on PowerBox 3100 (3.1kWh)
Standard 200L – 250L Deep Freezer	150W – 250W	18 to 22 Hours continuous freeze	24 to 28 Hours continuous freeze
Double-Door Inverter Refrigerator	120W – 160W	20 to 24 Hours continuous cooling	26 to 30 Hours continuous cooling
Kitchen Microwave Oven	800W – 1200W	2.5 to 3 Hours cumulative heating	3 to 3.5 Hours cumulative heating
Lumey Smart Induction Cooker	800W – 1500W	2 to 3 Hours fast flameless cooking	2.5 to 3.5 Hours fast flameless cooking
Automatic Washing Machine	400W – 600W	5 to 6 Complete Laundry Loads	6 to 8 Complete Laundry Loads
Commercial 1000W Heavy Blender	1000W	3+ Hours cumulative blending	3.5+ Hours cumulative blending
Full Home Entertainment Setup	250W	10 to 12 Hours	12 to 14 Hours

☑ Bundled with **2x 600W Monocrystalline Panels (1,200W Array)**, it charges fully in 3 hours while carrying your running deep freezer!

Order PowerBox 2600 / 3100 on WhatsApp (07062878273)

CHAPTER 5: FULL LONG-FORM SALES LETTER “ LUMEY HEAVY DUTY (4000, 8000 & 8000+)

Target: Duplexes, Luxury Mansions, Private Clinics,
Diagnostics, Boutique Hotels

PB 4000: ₦1.55M / ₦2.15M | PB 8000: ₦2.0M / ₦2.6M | PB
8000+: ₦2.3M / ₦3.2M

PRE-HEADLINE

FOR DUPLEX OWNERS, MEDICAL DIRECTORS & EXECUTIVES WHO REFUSE TO LIVE WITH GENERATOR NOISE, FUMES & ₦300K+ MONTHLY DIESEL BILLS...

MAIN HEADLINE & SUBHEAD

Yes, Solar Can Power Your Air Conditioners, Run Your Borehole Water Pumps & Keep Your Duplex Chilled In Total Silence.

Up To 8,000W Pure Sine Muscle, 8,000Wh LiFePO4 Mega-Storage & An Official 5-Year Battery Warranty. Sever Ties With The Broken National Grid Forever.

THE EXECUTIVE PARADOX AGITATION

You worked hard. You built or rented a magnificent duplex. You furnished it with modern inverter air conditioners, double-door refrigerators, and high-pressure borehole water pumps. Yet, running a 5kVA to 10kVA generator for your AC costs ₦12,000 to ₦20,000 every single evening. By the end of the month, your fuel and maintenance bill sits between ₦350,000 to over ₦600,000!

The floor of your bedroom vibrates with engine roar. Black soot stains your painted exterior walls. And when the generator develops a mechanical fault on a Sunday night, you and your family sweat through the heat. Suffering in luxury is not normal.

THE 4KW TO 8KW INDUSTRIAL SOLUTION WITH 5-YEAR BATTERY WARRANTY

Every Lumey Heavy Duty system is powered by **Grade-A Lithium Iron Phosphate (LiFePO4)** chemistry, rated for over **3,500 full charge cycles (8 to 10+ years of daily use)** and backed by an official ****5-Year Manufacturer Warranty****:

Model	Rating & Battery	Loads Powered	Box Only	Complete Solar Turnkey Combo
PowerBox 4000	4kW (5kVA) / 4kWh LiFePO4	Water pump, 1 Inverter AC (day use with panels), full house	₦1,550,000	₦2,150,000 (+4x 600W Panels)
PowerBox 8000	4kW (5kVA) / 8kWh LiFePO4	1 Inverter AC (day & mild night use), borehole pump, duplex	₦2,000,000	₦2,600,000 (+4x 600W Panels)
PowerBox 8000+	8kW (10kVA) / 8kWh LiFePO4	1 or 2 Inverter ACs, borehole pump, clinics, estates	₦2,300,000	₦3,200,000 (+6x 600W Panels)

CHAPTER 6: THE MASTER 15–OBJECTION STEELCLAD REBUTTAL ENCYCLOPEDIA

Word-For-Word Rebuttal Scripts for Landing Pages, Sales Teams & WhatsApp Closers **Eliminating Every Barrier to Purchase**

1. "Will it carry my Fridge or Deep Freezer?"

"Yes! But we refuse to give you a misleading answer. If you have a table-top or energy-saving fridge (up to 120L), our **PowerBox 1500 or 1900** runs it for 14â€"22 hours. If you have a standard household deep freezer or double-door fridge, you need the **PowerBox 2600 or 3100**, which features a 2kW pure sine wave inverter to absorb the compressor start-up surge smoothly. Tell us your fridge model, and we'll tell you the exact PowerBox that fits."

2. "Can it carry an Air Conditioner and Borehole Water Pump?"

"Air conditioners and water pumps draw massive inductive surges. Our portable series (600 to 3100) is built for essentials, fridges, and kitchen loads. For 1HPâ€"1.5HP Inverter ACs and borehole pumping machines, we engineered the **Lumey Heavy Duty Series (4000, 8000 & 8000 Plus)** with 4kW to 8kW pure sine inverters and 5-Year Warranty LiFePO4 batteries."

3. "Can I iron my clothes or cook on it?"

"Standard dry irons pull 1,500W and old hotplates pull 2,000W, which drains solar batteries too fast. That's why Lumey created custom **Solar-Optimized Products**: our **300W Inverter Pressing Iron (â‚,20,000)** presses clothes razor-sharp while using only 300W (compatible with PowerBox 1500+), and our **Smart Induction Cooker (â‚,50,000)** allows fast flameless cooking on PowerBox 2600+."

4. "Will it fry my delicate MacBook, smart TV, or medical ultrasound?"

"Never. Cheap generators produce distorted square waves that overheat and burn delicate microchips. Every Lumey PowerBox uses a **100% Pure Sine Wave Hybrid Inverter**. The electricity is cleaner and more stable than NEPA grid power. Your MacBooks, OLED TVs, and medical equipment are 100% safe."

5. "What happens during rainy days or Harmattan when there is no sun?"

"You are protected by our **Triple Charging System**: (1) Monocrystalline panels absorb UV daylight radiation even in overcast weather. (2) Whenever NEPA gives lightâ€"even for just 2 hoursâ€"the internal high-speed charger tops up the battery to 80%. (3) You can top it up using any generator in 1â€"2 hours, shut the generator off, and sleep in silence."

6. "Don't solar batteries die after 8 to 12 months in Nigeria?"

"The batteries that die in 12 months are cheap, second-hand tubular car batteries. Lumey Energy **never uses lead-acid batteries**. We use brand new Grade-A **Lithium-ion and LiFePO4 cells (3,500+ cycles, 8 to 10+ years)** with an official **5-Year Warranty** on Heavy Duty."

7. "Do I need to rewire my house or hire an electrician?"

"For our Portable Series (600, 1500, 1900, 2600, 3100), **zero rewiring is required!** It is 100% Plug & Play. Simply unbox, plug your appliances or an extension strip into the front sockets, and turn it on. For solar panels, just click in the MC4 solar cable."

8. "The upfront price is expensive." (The Brutal Fuel Math)

"Let's do the honest Nigerian math: If you spend â‚,5,000 on petrol per day, that is â‚,150,000 monthly, or â‚,900,000 in 6 monthsâ€"completely wasted into smoke. With a Lumey PowerBox, you make a one-time purchase. In 2 to 4 months, you've saved back the entire cost of the unit. For the next 5 to 8 years, your electricity is 100% free profit. The expensive choice is continuing to buy fuel!"

9. "Can I buy just the PowerBox now and buy solar panels later?"

"Yes! Every model has a **'Box Price Only'** option. You can buy the PowerBox now, use it as an ultra-fast recharging silent power station charged by NEPA or generator, and add Lumey solar panels whenever you are ready."

10. "Can I upgrade to a bigger model later as my family grows?"

"Yes! With the **Lumey Trade-In Guarantee**, verified customers can return their working PowerBox unit in the future to deduct its value from an upgrade to a bigger capacity model. Your investment retains real value."

11. "Where is Lumey Energy located? What if it develops a fault?"

"Lumey Energy is headquartered in Oyemekun, Akure, Ondo State, with service centers, certified technician networks, and distribution partners across Lagos, Abuja, Ibadan, Port Harcourt, and Kano. All units come with a **12-Month Inverter Warranty** and up to **5-Year Battery Warranty**."

12. "Are there installment payment options?"

"Yes! We offer flexible financing starting from a **30% down payment**, with the remaining balance spread over 3, 6, or 12 months. The monthly money you save on fuel literally pays off your installment while you enjoy 24/7 power!"

CHAPTER 7: WHATSAPP DIRECT-RESPONSE CONVERSION SCRIPTS & CLOSING PROTOCOL

Official Lead Qualification & Direct Conversion Protocol

Direct Hotline: 07062878273

INBOUND WHATSAPP SCRIPT (AUTO-REPLY WITHIN 2 MINUTES)

"Hello [Customer Name]! Welcome to Lumey Energy. ðŸ™ªðŸ™ª-ðŸ™ª
Thank you for inquiring about the **August 2026 Lumey PowerBox Series**.

To ensure we recommend the exact right model so you don't overspend or buy undersized capacity, please tell me:

1. **What are the main appliances you want to run?** (e.g., Laptop+Fan / Table-top Fridge / Deep Freezer / AC)
2. **Do you want the Box Only (backup station) or the Complete Solar Turnkey Package with panels?**

Once you reply, I will share the exact runtime breakdown and pricing for your home!"

FINAL P.S. DIRECT-RESPONSE CLOSERS (FOR ALL LANDING PAGES)

P.S.: Remember, fuel is currently â‚¬1,150/litre and rising. Every night you delay is another â‚¬15,000 to â‚¬15,000 burned into black exhaust smoke. The money you will spend on petrol over the next 90 days is already enough to buy your Lumey PowerBox. Stop renting electricity. Start owning your power today.

P.P.S.: August 2026 Batch pricing includes **Free Nationwide Delivery** and our official 12-Month Inverter Warranty (and 5-Year Battery Warranty on Heavy Duty). Orders are fulfilled on a first-come, first-served basis.

P.P.P.S.: Have a custom question about your freezer, iron, or AC? Chat directly with our solar engineers on WhatsApp right now at **07062878273**.
