3. The Partner Sales Enablement Arsenal

COPY & BATTLECARDS

3.1 The 7-Day Copy-and-Paste WhatsApp Status Sequence

Monday: The "Fuel Math" Reality Check

"If you spent ₦35,000 on fuel this weekend just to endure generator noise and black smoke, stop scrolling."

In 6 months, that's over ₦500,000 literally burned away in fumes! That ₦500k is enough to own a permanent Lumey Solar Generator that never drinks fuel, makes ZERO noise, and lasts 8 to 10 years.

Stop paying rent on darkness. Reply 'LUMEY' for our August 2026 price list and 30% down installment terms!"

Tuesday: The "Appliance Proof" Video

"They said a solar generator cannot press clothes? Watch this."

This is our Lumey 300W Inverter Iron plugged straight into the PowerBox 1500. It presses native wear razor-sharp while drawing just 300 watts! No trips, no voltage dips.

Your big generator can rest. Your clothes are crisp. Your house is silent. DM me for doorstep delivery today."

Wednesday: Band A Tariffs & Grid Collapses

"National grid collapsed again. Band A units wiped out before mid-month. And petrol is ₦1,150/litre."

While neighbors are scrambling for candles and pulling starter cords, Lumey homes didn't even blink. 10ms automatic switchover.

Units start from ₦260,000 with flexible 3-month payment options. Don't wait until fuel hits ₦1,500. Message me now!"

Thursday: The Remote Hustler Desk Hook

"To my tech guys, forex traders, writers, and remote workers:"

How many times did your Zoom call drop this week because NEPA took light and your router restarted? How much money have you lost to missed deadlines?

The Lumey PB 600 powers your laptop, external monitor, router, and fan for 12+ hours on a single charge. It pays for itself in one gig. Send a DM to reserve yours."

Friday: Social Proof & Family Relief

"Nothing beats this feeling. Another Nigerian home set free from generator madness."

Zero toxic fumes. Zero sound. Happy wife, sleeping baby, cold drinks in the fridge.

All units come with a 12-Month Official Warranty and up to 5-Year Battery Lifespan. Fast doorstep delivery nationwide. Reply 'ORDER' to get yours before the weekend!"

Weekend: Scarcity & Installment Close

"12 units dispatched this morning for Ibadan, Port Harcourt, and Abuja."

Due to currency shifts, factory promo prices on the PB 600 (₦260k) and PB 1500 (₦380k) will increase at month end.

Lock in your order today with just a 30% commitment deposit before prices jump. Send a DM right now!"

3.2 Objection-Handling Battlecards (Word-for-Word Closing Scripts)

CUSTOMER OBJECTION	ROOT FEAR / CONTEXT	EXACT TACTICAL RESPONSE SCRIPT
"Your price is too high. A small generator is only ₦80k–₦150k."	Sticker shock; ignoring lifetime running costs.	<i>"You are right that a generator is cheaper on Day 1. But that generator burns ₦2,500 fuel daily—that's ₦75,000 every single month! In 4 months, you've spent ₦300,000 on petrol alone. With Lumey, the sunshine is free, there is zero petrol, zero oil change, zero noise. Lumey is not an expense; it is the machine that stops your fuel bleeding."</i>
"Will it carry my fridge and deep freezer?"	Fear of buying an underpowered box that trips.	<i>"Yes, depending on your model. Our PB 1500 powers table-top and inverter fridges (up to 120L). For big double-door deep freezers, the PB 2600 handles high motor surge effortlessly. If you want ACs too, our PB 4000/8000 carry 1HP–2HP Inverter ACs day and night. Tell me your exact appliances and I will match the right model."</i>
"Why not buy normal inverters with car/truck batteries?"	Familiarity with legacy acid battery setups.	<i>"Old inverters use heavy lead-acid batteries with toxic fumes and tangled wires that spoil in 12–18 months. Lumey PowerBox uses Grade-A LiFePO4 cells—the same tech used in electric vehicles. It gives 3,500+ cycles (lasts 8 to 10 years), charges to 80% in 2 hours, and sits cleanly on your parlor shelf."</i>
"What if it spoils after a few months?"	Fear of unbranded imported fake solar gadgets.	<i>"Lumey is an established Nigerian brand with physical hubs in Akure, Lagos, Abuja, and Port Harcourt. Every unit includes a serialized 12-Month Comprehensive Unit Warranty and up to 5-Year Battery Warranty. If there is a factory fault, our certified engineers repair or replace it directly."</i>
"Can I pay small-small?"	Cash flow liquidity constraints.	<i>"Yes! We offer a 3-Month Installment Plan. Pay an initial 30% deposit, verify your basic BVN/ID, and spread the balance over 90 days. Zero loan-shark embarrassment. Which model do you want to calculate for today?"</i>

4.1 The 60–Second In–Person Sensory Demo Protocol

Phase 1: The Sensory Contrast

ODD SILENCE

Keep a Lumey PB 1500 on the table running a standing fan blowing cool air on the customer, and a 43" TV playing an action movie.

"Notice anything unusual in this room? The fan is spinning, the TV is crystal clear, but where is the generator noise? Listen... absolute zero sound. That is pure whisper-quiet peace."

Phase 2: The Heavy Draw Test

LIVE IRON / BLENDER

Plug in the Lumey 300W Inverter Iron or a 600W blender directly into the front AC socket in plain view of the customer.

"People think solar boxes only charge phones. Watch this: here is an iron heating up. The box doesn't shake, doesn't trip, and the smart LCD shows exactly 305W being drawn."
