THE BRUTAL FINANCIAL TRUTH

Lumey PowerBox
From â‚¬260,000

 **Order on WhatsApp**

Fuel in Nigeria is now over ₦1,050–₦1,200 per litre. When you run a small fuel generator, your hard-earned money turns into toxic smoke. Look at the numbers nobody says out loud.

⚠️ The Fuel Generator Trap

At just 5 litres of fuel a day (₦5,500), you burn **₦165,000 every 30 days**. In 6 months, that is **₦990,000 into thin air!** Plus carburetor repairs, snapped cords, and sleepless, noisy nights.

✅ The Lumey PowerBox Freedom

Pay once. Enjoy clean, silent electricity for **5 to 10 years**. Charges from free sunlight or 2 hours of NEPA. The PowerBox completely pays for itself within 3 to 5 months. After that? Pure savings.

📊 Fuel vs. Solar Savings Calculator

Move the slider to see how much money you will rescue from petrol stations:

“

"When I got my Lumey PowerBox, my next-door neighbour bought a petrol generator. Within one month, my neighbour was completely exhaustedâ€”waking up at midnight to pour fuel, spending â‚¬145,000 weekly, and enduring constant noise. After 5 weeks of seeing my parlour brightly lit and my fans spinning in utter silence, my neighbour abandoned his generator and bought a Lumey PowerBox too. That is the moment I knew this was the best investment I made all year."

Engr. Emeka O.

SMART ENERGY BOOSTERS

Complimentary Solar-Optimized Products

Designed specifically to work with Lumey PowerBoxes without draining your battery.

Lumey 300W Inverter Pressing Iron

â‚¬120,000

Standard dry irons consume 1,500W and drain solar batteries fast. This custom inverter iron presses your clothes razor-sharp while pulling only 300W! Compatible with PowerBox 1500 and above.

Lumey Smart Induction Cooker

â‚¬150,000

Flameless, fast, and 100% solar compatible (200Wâ€“1800W smart variable power). Cook your food cleanly without spending money on gas or kerosene! Runs smoothly on PowerBox 2600 and above.

Lumey High-Efficiency Solar Fans

â,!60,000

Ultra-low wattage, whisper-quiet DC/AC hybrid brushless motors. Delivers powerful, refreshing breeze while drawing only 18Wâ€”25W. Keeps you cool through 20+ hours of continuous sleep.

 **Add To Order (â,!60k)**

ZERO GUESSWORK

Got Questions? Every Single Objection Answered Honestly.

We never hide limitations. Here is the exact truth about how your Lumey PowerBox works.

1. Will it power my Fridae or Deep Freezer?

Lumey PowerBox
From â,!260,000

 **Order on WhatsApp**

Yes, but we don't give you a generic one-size-fits-all answer! If you have a **table-top or energy-saving fridge (up to 120L)**, the **PowerBox 1500 or 1900** runs it comfortably for 14-18 hours. If you have a **standard household deep freezer or double-door refrigerator**, you need the **PowerBox 2600 or 3100**, which packs a 2kW pure sine wave inverter to handle compressor surges effortlessly.

2. Can it carry an Inverter Air Conditioner or Water Pump?

3. Can I press clothes or cook with solar?

4. Will it damage my expensive laptop, smart TV, or medical equipment?

5. What happens during rainy days or cloudy weather?

6. Don't solar batteries die after 6 to 12 months in Nigeria?

7. Do I need an electrician to rewire my house?

8. "The upfront price is expensive." Is it really?

9. Can I buy just the PowerBox now and buy solar panels later?

10. Can I upgrade to a bigger model later?

12. Are there installment payment options?
